

## Infrared Heat Lamp Shade

Deba Brothers® is a leading China Infrared Heat Lamp Shade manufacturers. One piece switch metal lamp shade. The heat preservation lamp is used in the farrowing crate, welfare crate to keep the piglets warm and not freeze to death

## Product Description

Deba Brothers® is a professional China Infrared Heat Lamp Shade manufacturers and suppliers, if you are looking for the best Infrared Heat Lamp Shade with low price. Deba Brothers®' infrared heat lamp shade can be used with pig heat lamp. The infrared heat lamp shade and pig heat lamp can be used together to reduce the damage to piglets caused by excessive temperature. The infrared heat lamp shade's material can prevent rust and scald, and its service life is long.

### Infrared Heat Lamp Shade Accessories

- 1.2 meter anti rust hanging chain
2. 2.5m switch wire
3. glass steel beam bracket
4. high temperature resistant ceramic lamp holder
5. thickened aluminum alloy lampshade

### Infrared Heat Lamp Shade Advantage

1. Provide warmth for the piglets to avoid being invade by the cold wind.
2. Heat energy continues to circulate and refraction. Better insulation effect.
3. Infrared Heating Lamp Breeding Bulb 100W/150W/175W/200W/250W.

### Infrared Heat Lamp Shade details

1. Aluminum cover printing design: Heat energy continues to circulate and refraction, better insulation effect.
2. Three block moisture switch design: High, low and off controllable temperature flexible adjustment, let piglets grow healthily.
3. Nickel-plated thick protection fence: Anti-rust, anti-scald, anti-scratch, comprehensive protection is in place.
4. Die-cast aluminum alloy cooling lamp holder: Built-in ceramic cap, threaded copper,

high temperature resistance, no rust and no fall off.

5. Nickel-plated anti-rust and anti-corrosion chain: Load 100kg without breaking.

## PRODUCT DESCRIPTION

## PRODUCT SIZE

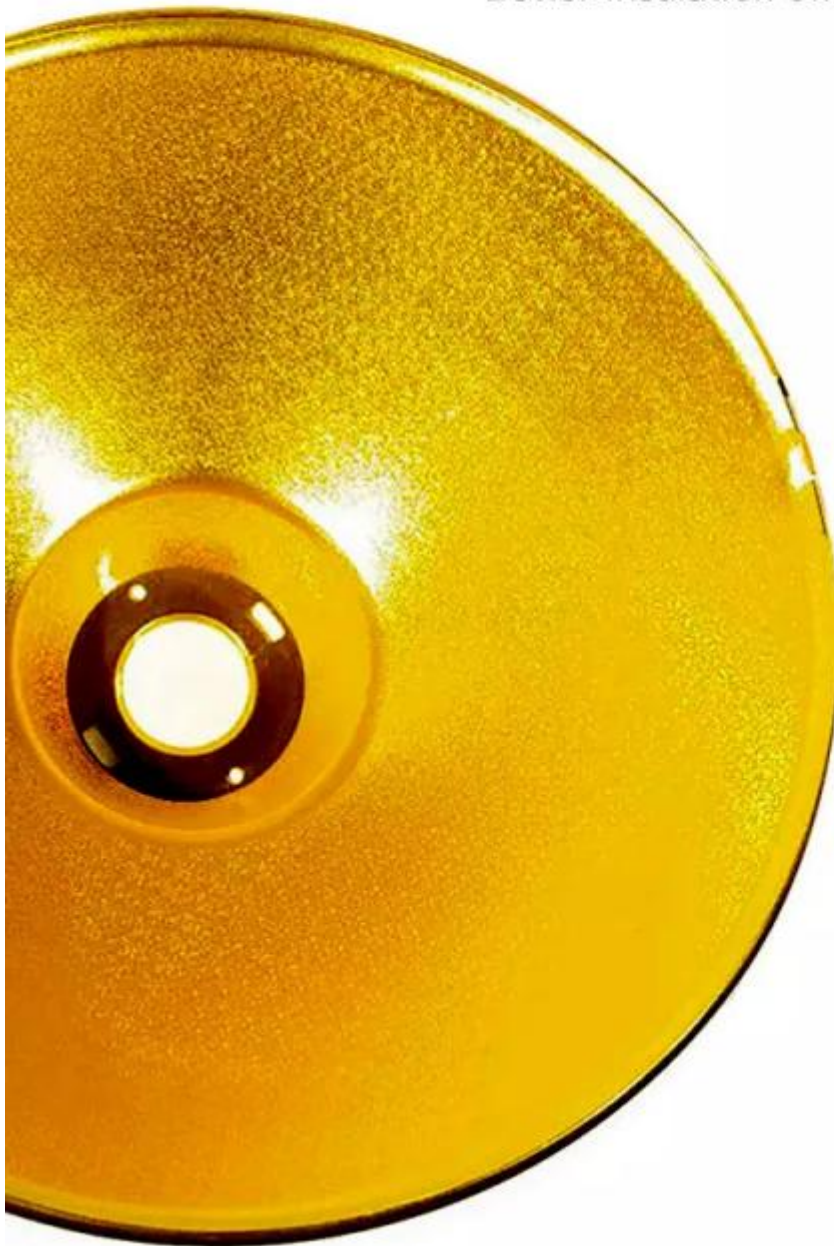

## PRODUCT DETAILS

# Aluminum cover printing design

Heat energy continues to circulate and refraction  
Better insulation effect

## Three block moisture switch design

High, low and off controllable temperature flexible adjustment  
Let piglets grow healthily

## **Nickel-plated thick protection fence**

Anti-rust, anti-scald, anti-scratch  
Comprehensive protection is in place

# Die-cast aluminum alloy cooling lamp holder

Built-in ceramic cap, threaded copper  
High temperature resistance, no rust and no fall off

# Nickel-plated anti-rust and anti-corrosion chain

Load 100 kg without breaking

Double-ended accessory hook

Provide warmth for the piglets to avoid being  
invaded by the cold wind
